Application Review Criteria

All applicants who have met the basic admission criteria at the time of application will have their applications reviewed and ranked according to the scale below. The admissions GPA will be calculated by the Elementary Education Program Admission Committee on 18 credit hours using the grades in EDUC-F 200, ENG-W 131, SPCH-S 121, MATH-T 101, the Social Studies content course and the Science content course. If applicants have more than one Social Studies content course and/or Science content course completed, then the course with the higher grade will be used to calculate the admissions GPA.

Transfer candidates who have completed EDUC-F 200 (or a transferred equivalent) at another postsecondary institution must have the instructor of the course complete the Indiana University Southeast "EDUC-F 200 instructor evaluation form", and forward it to the Coordinator of the Elementary Education Program. If the transfer candidate is unable to contact the instructor of the EDUC-F 200 course (or its equivalent), then the transfer candidate may have the instructor of another completed education course (that has an elementary school field experience) complete the EDUC-F 200 instructor evaluation form, as long as prior approval is obtained from the Coordinator of the Elementary Education Program at IU Southeast. If the transfer candidate cannot arrange for an approved instructor to complete and forward the EDUC-F 200 instructor evaluation form, then the candidate must complete the EDUC-F 200 course at I U Southeast prior to application.
