

**III. References**

Please list three people who can speak to us about your intellectual and personal interests and strengths. It is strongly preferred that these individuals not be family members. Further, Tier II applicants should make sure that at least one reference is from a college or university faculty member. If you have attended a college or university, please make sure that at least one of your references is from a faculty member with whom you've studied.

**V. Introduce Yourself**

Please attach brief essay (between 700 and 2000 words) that will serve as your introduction to the members of the Honors Council. You may wish to write about such things as your favorite secondary school class, what you hope to achieve as an Honors Program participant, or some idea that has captivated your attention. The decision about the subject matter will be your own; however, you should craft your essay to let the members of the Honors Council have some insight into your enthusiasms, your ideals, and your goals.

I hereby certify that the information I have provided in this application is complete and accurate.

Further, I understand that if I am found to have misrepresented myself or my accomplishments my application will be dismissed and/or I will be dismissed from the Honors Program itself. In addition, misrepresentation of myself in this application will result in my forfeiture of any financial aid I may receive from the Honors Program.
