NOVEMBER ETIQUETTE DINNER

Career Services will be hosting a Professional & Dining Etiquette Dinner Wednesday, November 4th from 5:30-7:30p.m. in the Hoosier Room. This is a wonderful opportunity for students to polish their dining skills and give themselves an edge in any situation- and in today's job market, this is very important. The event is open to both students, faculty and alumni. The cost of the event is \$10.00 and seating is limited. Participants must pre-register in advance in the Career Services Office at UC106 or by calling 812.941.2275. Cash, check, and credit card are accepted. Your payment will reserve your spot and pay for your dinner. The reservation deadline is Friday, October 30. Don't underestimate the importance of this event, book your spot today!

INTERN SPOTLIGHT

We recently sat down with Senior Keith Pierce, a Communication major and Theatre minor who began interning at Louisville Metro TV in May, and continues to volunteer there now.

Q: What got you interested in the internship experience?

A: I became interested because I wanted to work in production, and in our area there aren't any campuses which offer a Telecommunication degree in video production. So, I knew that I had to have an internship in order to gain the experience I needed. I knew that in order to get a good job I would have to get my foot in the door and gain real life experience.

Q: What is your title and what type of tasks are you able to perform?

A: I get to do voice-overs, run cameras during shoots, and do all of the video editing using Final Cut Pro. I've also had the opportunity to work on-camera. I basically get to work on a story from start to finish. If we have an ideal we can get it approved and work on it from beginning to end: writing the story, shooting the story, editing the story, and finally airing the story. I have also had the opportunity to run live events, such as budget hearings, where I was actually in the studio during the live airing, switching cameras and zooming in and out.

Q: What has been the biggest benefit of your internship?

A: The biggest benefit has been actually getting experience. I'm not filing papers or getting coffee- they are actually teaching me how to use cameras, how to do interviews, and learning the whole process of writing, creating, and producing a story.

Q: What advice do you have for students who have not participated in the internship program, or who may be considering an internship?

A: Do it. If you find the right internship, you can gain valuable experience in the real world. The right internship will teach you everything you need to know and then put you out there with the experience you need to succeed. The opportunity can also allow you to learn whether or not something is right for you. In the end, the internship can only help you because when you look for a job, employers want world experience, they don't want to hire people who've never done the work. So, I recommend that students get an internship to gain experience in their field.

NEED A SPEAKER FOR YOUR CLASS?

Let Career Services help you! We have over 200 professionals who have indicated an interest in speaking to your students about their professions. Call us if you'd like our help connecting to professionals in your field. Contact: mjahtfie@ius.edu, 812.941.2271

STUDENTS WHO NEED HELP DECIDING THEIR MAJOR...

Check out our CAREER CHOICES & COMPETENCIES CLASS -- a 3.0 credit course especially designed for students trying to decide their majors. We'll help them understand how their skills, interests, personality and values will guide them toward a major and career that's right for them!
