

Money Matters Checklist

- ❑ Complete your FAFSA. Check out our Financial Aid website for instructions and more information. The state deadline for financial aid is March 10th.
- ❑ Pick a payment plan that works for you. The Bursar's office has information on paying in installments, all at once or even deferments if your fees are being paid through an employer.
- ❑ Apply for scholarships both on and off campus. Financial Aid has a lot of information on campus, local, and scholarship resources.
- ❑ Set your budget. Meal plans are not required for living on campus but can be a very helpful way to help plan out your food costs. Check out our meal plans.
- ❑ Make a plan. Living on campus, paying for tuition, and living on your own can be a strain on anyone's financial resources. Make a plan before you arrive on campus that includes a budget, possible job opportunities, and a fall back plan if something falls through. Remember that there are lots of resources and people willing to help on campus all you have to do is ask.
