The university disciplinary process will include a prompt, fair, and impartial investigation and resolution process. Investigators and hearing board members are trained annually on the issues related to domestic violence, dating violence, sexual assault, and stalking, and taught how to conduct an investigation and hearing process that protects the safety of the complainant and promotes accountability. The process provides:

- The complainant and the respondent each have the opportunity to be advised by an advisor of their choice, at their expense, at any stage of the process and to be accompanied by that advisor at any meeting or hearing.
- The complainant and the respondent will be notified in writing of the outcome and results of any disciplinary proceedings.
- The complainant and the respondent each have the right to appeal the outcome of the hearing and will be notified in writing of the final outcome after the appeal is resolved.

**Sanctions**
The University may impose sanctions on the respondent following a final determination of university disciplinary procedures for sexual assault, dating violence, domestic violence, or stalking.

- Possible sanctions range from educational outcomes to suspension or expulsion from the university.
- Employees may be subject to discipline, up to and including termination of employment.

**Protective Measures**
In addition to the interim and remedial measures available through the University (see Resources), IU recognizes all valid orders of protection, no contact orders, restraining orders, or similar lawful orders. If you have a valid order, please inform IUPD to receive appropriate services. To learn more about protection orders contact the Indiana Coalition Against Domestic Violence (ICADV) hotline at 1-800-332-7385.

**Rights and Options**
Indiana University does not tolerate sexual assault, dating violence, domestic violence, or stalking. If you find yourself in one of these situations, please consider the following options outlined below and reference the Resources section of this brochure for resources and contact information.

**Find a safe place**
Get to a safe place as soon as you can. If you believe you or anyone else is in immediate danger, you should alert law enforcement as soon as possible. Once you are safe, contact someone you trust to be with you for support.

**Get medical attention**
Medical attention should be sought as soon as possible. This is necessary to mitigate the risk of sexually transmitted diseases or pregnancy and to determine the existence or extent of, and to treat, any physical injury. Additionally, forensic evidence can be collected if criminal action is desired or may be desired in the future.

**Preserve evidence of the incident (s)**
It is important to preserve evidence as it may be necessary in providing proof of criminal activity or in obtaining a protection order. Evidence is best collected as soon as possible or at least within 96 hours of the assault. Assistance with evidence preservation can be provided by medical and/or law enforcement personnel.

**Get counseling support**
Counseling is recommended during this difficult time. Whether services are sought on campus or in the community, remember that self-care is an important part in coping with the event.

**Consider reporting the incident**
There are several reporting options including reporting to campus or local law enforcement, going through the student conduct system, and/or filing a Title IX complaint. Campus authorities will assist in notifying law enforcement if requested. Law enforcement involvement can also be declined.

**Information Confidentiality**
The University is committed to protecting your privacy by sharing information with only those who need to know. As such, your information may need to be shared with those involved in investigating the incident, those responsible for providing necessary resources and remedies and those responsible for ensuring the public’s safety. The University prohibits retaliation and will protect you from such behavior in connection with your report.

Confidential employees are licensed, professional counselors (e.g. mental health counselors, psychologists) that can maintain your complete confidentiality. This means they are not required to convey any information regarding your situation without your consent. Additionally, health center staff do not have to share identifying information unless you provide your consent; however, they are obligated to provide non-identifying information regarding the nature, date, time, and general location of the incident for purposes of compiling aggregate annual crime statistics and assessing the need to alert the university community of potential dangers. Most other University employees are required to report names and details of any incident of sexual misconduct they are aware of to the Title IX Coordinator or designated Deputy Coordinator on your campus for further investigation. You should discuss your desires regarding confidentiality with any University employee with whom you speak, to ensure you understand their reporting obligations and what information they may be required to share.

Please note that under Indiana law, any person that has a reason to believe a person under the age of 18 is a victim to abuse or neglect, including relationship violence or assault, must make a report to the University Superintendent of Public Safety. This information will be shared with the Indiana Department of Child Protective Services.
