### Other (please specify):

Healthy vegan options

It's mostly closed when I am at IUS

ice cream

Organic food

I know this probably isn't possible, but more space. That cafeteria is so small, especially during rush hour.

More healthy options and Vegetarian options

Off campus restaurants accepting Ucards does not make up for the fact that our on campus options are terrible and the food taste awful.

clean foods

healthier

Gluten-free offerings

More vegetarian options

Have restaurants on campus ex. burger king

healthier food

A separate drink fountain to refill personal cups with ice and water

weekend hours

No preservatives, no artificial ingredients, MORE VEGAN options, ETC....

healthier food choices (naked juice, gluten free sandwiches etc)

Food Chains

Debit cards for sure. It's ridiculous that we have to conform by taking out cash from our bank and then sticking it on our Ucard.

Having more time.

Special meal days, like a crawfish boil one month or something

longer lunch hour. I don't feel like I have enough time between my classes to go through a line, sit to eat, and get to class on time.

if it wasn't closed all weekend, and was actually open long enough to get dinner on weekdays (6:30??)

Better raw salad bar ingredients

Allergy minded options (lactose intolerance)

a bigger food court

I've gotten food poisoning repeatedly from the salad bar...

Using a little bit more seasoning in the food, otherwise it is spot on.

don't even know where the food court is!

Emailing Lunch Menu's To Students

Highly priced food and can't even use debit card

haven't eaten there

allergen information

quality/health standards

More room/quicker service

variety of dishes

more variety of hot foods

More seating and larger cafeteria

better organized dining area (too cluttered)

A Restaurant, ie: McDonald's, Arby's, Wendy's...

more health-conscious food

Debit cards again

actual posted hours

Clear gluten free/allergy specific menu

concerts,

Concerts, art shows

Concerts, Cultural Festivals, Parties/Mixers, Potlucks, Outdoor, free, early morning aesthetics or yoga classes (with the purpose of meeting more students and building relationships throughout the IUS community). Invite interesting speakers to discuss relevant current subjects and have them come in for an assembly, and students should have a chance put in realistic suggestions and vote on them. Students can also have a chance to ask questions to the speaker and take notes (the speaker could be discussing subjects maybe outside of a curriculum, yet still relevant to a major of study: Psychology, History, New advancements in the Scientific world, etc.) Professors could also offer extra credit as an initiative to attend. Students can put out flyers, post information in The Horizon, spread info. by word of mouth. It could be a fundraiser (any of these events could be fundraisers) Also, do we have a film committee? I know we have movie nights already. But if we had a film committee who know's a lot of thought provoking, yet perhaps unknown to a lot of people/not mainstream, films, we can get Professors to urge students to attend. Most people love movies, college students love to learn, and while movies can open your horizons to new worlds you may feel like you're not apart of, movies connect you with those worlds or people lives you never before may have felt you could fit into, have similarities with, or understand.

Concerts, festivals

Concerts, plays, guest lectures

concerts, shows.

Concerts?

Creative, fun, and interactive events.

Credible guest speakers (real world experience and application that worked). Example of past events: Ben & Jerry's, Oakland A's, I'm sure other departments outside of business can benefit by someone like them in their field visiting and giving lectures.

Don't know

During my time at IUS, I plan on attending many events centered around music and the arts in general.

Educational

Educational events from like speakers in my degree area or business workshops.

educational related

educational seminars on healthcare topics

equality of all types, diversity

Event speakers. In general, more academic events.

Events about different majors. Or events where students majoring in certain majors can meet people in that field of work, and students can get more information on that career

Events directed towards majors

events similar to welcome week during the beginning of the fall semester such as concerts, food, etc.

Events that allow us to interact with our professors more often, and that let working student develop more rapport with professors.

events that appeal to a more mature audience. Not necessarily games or activities, but events such as concerts.

Events that are usually done outside

Events that augment my education. Ex: events that are related to my major (business) and will help keep me informed on what's going on in the "real world" regarding the business field.

Events that cater to 'Adult Students,' not every freshman just graduated high school

Events that connect students with the outdoors.

Events that inform me about my major or future work field

Events that occur later in the evening or on weekends. I'm interested in a lot of the events but because I work until 5p I can't attend them.

events that we can interact with more

events to cater to the minority students.

Events to help me gain knowledge about areas I'm interested in.

Everything is great already.

Experience-driven events across a wide range of topics. Something along the line of TED Talks, except in this case it'd be something like GUS Talks!

Educational, inspiring, and innovative.

extra activities to get people involved

Extra credit

Fairs

Fall Festival

Family activities to interact with children.

Family events. Something that adult students could bring their husbands or children to.

Guest speakers in carrying fields

guest speakers of note

Having an animal event would be cool. One where we raise money to donate to a shelter.

heath fair, environmental fair

Hockey

Homecoming, seasonal events, drives, movie nights, concerts

Honestly it wouldn't matter to me because I wouldn't have the time to attend anything.

I would like to see more political events. It's useful to have politicians invited here to express their views and comment on political shifts, plan etc in state and country.

i am content with the events we have

I am most interested in attending professional development events in the field of education that will help me to become a better teacher.

I am not aware of any events, therefore I have no answer to this.

I am sure there are already events that I would love, it is just about finding out about them.

I am usually at school in the evenings, so anything that's typically done during the day, just later.

I am willing to attend events if I have the time to intend them. I am not really into sports, but otherwise all sorts of events I would be willing to attend.

I don't care.

I don't have any events in mind at this time

I don't know

I don't know.

I don't know.

I don't really have any time to go to extra events.

I don't typically attend any events unless it is a life or death thing such as extra credit for a class or something, therefore I cannot comment.

I enjoy being able to walk on campus and hear live music from the clocktower area.

I enjoy the cultural events very much. I would really love it if the school did Rock Horror Picture Show. It would really be fun. Inspirational speakers are good to see as well.

I enjoy watching athletics, I just typically don't have time or someone interested in going with me.

I guess I would like to see more cultural events, or events from clubs.

I like all events.

I like live bands and free food.

I like play's and dancing! I don't like sports or watching them.

I like seeing plays.

I like the ones that offer food and door prizes, scholarships, stuff like that

I like the plays and musical events, along with speakers.

I like the type of events we have now but I would like them to be more spread out in the times that they occur instead of so many happening during lunch.

I really enjoy the family event in the fall, having children makes it easier to attend so I can bring them instead of finding a baby sitter.

I think everything that is offered is plenty.

I think there are already a lot of good on campus events.

I want the campus to have a better variety of events.

I would like more fun things... like welcome week. Like cookouts or even bonfires, something to that nature.

I would like see more bonding experiences such as dances or talent shows.

I would like to attend some athletic events. I would like to see student involved events, such as plays, stand up comics, poetry, dances, etc.

I would like to have the technology event happen again. I had to miss out on the one a couple weeks ago because of class, but it seemed like it was really cool. Maybe try to get some events for the specific majors out there too. I would love to get to know some more of the business majors, specifically general business majors-- I have yet to meet another general business major.

I would like to see a bigger variety of music events, maybe some Christian music concerts

I would like to see an activities day. Or a game night.

I would like to see athletic events on campus. / I would also like to see events for students who may have children, get the children involved.

I would like to see events for different majors.

I would like to see more athletic and campus life events.

I would like to see more big, free events on campus to get to know others.

I would like to see more cultural events related to Hispanic or Spanish-speaking cultures.

I would like to see more education events on campus.

I would like to see more events for the LGBTQ community and their friends/supporters (Like the Straight But Not Narrow campaign.)

I would like to see more events involving our majors. For example, more events involving the school of business focusing on different concentrations at different events. One event for Accounting, one event for Human Resources, etc.

I would like to see more events that bring in a large majority of the students. No matter the activity, just something that includes a large group of us.

I would like to see more events with food.

I would like to see more extra curricular lectures

I would like to see more faith based events.

I would like to see more family oriented programs. Some of the students I have met and talked with are parents and would like to bring their child/children to campus and enjoy the atmosphere. Especially when their mom or dad takes classes here at IUS

I would like to see more guest speakers, perhaps innovators of social or political change.

I would like to see more lodge bonding events to get to know others in your lodge.

I would like to see more music performances.

I would like to see more musicals from the theatre department.

I would like to see more plays or performance events on campus.

I would like to see more social events for anybody.

I would like to see more social get-togethers and themed events on campus.

I would like to see our campus more active in the community, recycling efforts,

I would like to see social events on campus. I liked going to the ice cream social and to watch a movie in the Hoosier room, but a lot of other events that I thought sounded fun are scheduled on Saturdays. A lot of students are gone on the weekends.

I would like to see some concert type of events. Either a band or maybe a comedian coming through and performing for only students of this school.

I would like to see some kind of event geared towards the older student.

I would most like to see athletic events, but I'm just never aware of when they are being held.

I would most likely visit sporting events on campus, but I never know the schedule of any upcoming athletic events.

I would prefer events to strictly be useful for me as a student, not entertainment

I'd like to see more Greek and specific major events.

I'd like to see more speakers come and lecture, or for the campus to hold concerts.

If they made organization meetings and activities on days that I am at school and not in class

im not really into events

I'm not sure

I'm not sure.

Informative speeches on how to manage money, and financial assistance to students. Also more opportunities to learn about current events, and keep updated on events of IUS. More addressing the possible problems on campus.

intellectual

Interactive events that attempt to get commuters to attend.

interesting art events

Interesting events that challenge my mind.

intermerals

Inter-mural sports such as soccer

intermurals

intramural soccer

Intramural Tennis

More educational events such as free lectures or panels on current events etc

More English Club writing or reading events.

More evening events of any type.

more events at the ogle center

more events during the school day. As a commuter from Louisville with only daytime classes, I am never on campus in the evening when a lot of the fun activities are held.

More events focused on things students would be interested for.

More events gears to seniors.

More events that everyone can feel involved in.

more events that involve student interaction would be awesome so people can make new friends.

More events that studnets attend to show school spirit.

more events to get involved in

more free cocerts

More frequent "artsy" and culture things

more gradation year based events, so you'll know your graduating class

More group gatherings.

More guest speakers and family programs

More hands on events where you can really get in there and leave with your own hands.

more intermual events.

More intramural sports, maybe more competitions

More intramurals

More intramurals

More involvement.....anyway you can

More job fairs.

More Job Shadowing opportunity events, and Job Fairs related to the Criminal Justice Field.

More music events!

More music/food events

More open fun events. I feel like I don't hear much about any events.

more open mic etc.

More orchestral concerts, plays, musicals, kid frinedly events, networking events for your intended major, international festivals, fall/winter (holiday-?) events/carnivals, etc.

More organizations competing in activities.

More physical activities.

more plays

More political events and more concerts of different genres.

More political events, more music based events

more psychology events and speakers: ny times best sellers in the area of neuroscience and what current research means to psychology (Norman Doidge.. people like that).

More quest speakers

more school spirit

more social events

More social events like how we had the "magician" during the first week of school.

More social events.

More social events.

More social to get out and meet people.

More social, get-to-know-you events would be nice, especially since I know I'm not the only one who is nervous meeting new people.

More social/political events

More socialization. Volleyball, basketball, /

More special interest groups, such as a Game of Thrones club, or a film club.

More spirit events

More spontaneous events like during the first week of school.

More sports/ intermural events

More Student Activity Events for Example the Week of Welcome

More student friendly activities

more student involvement such as student discussion and activity based entertainment

More students activities!!!!

more theater events

more theater/dance

More things relating to the criminal justice field.

more things to do in the lodges

More things to do with student athletes.

### **What do you feel is most lacking on campus?**

a steady list of classes

I don't hear a lot about sports events, being able to use a debit card at cafeteria and coffee shops would likely encourage me to go there more often.

A balanced perspective. My teachers are very far left and seem to be closed minded to any other views

A better cafeteria

A better weight training area.

A community garden

A competent athletics program.

A computer lab in the Music Department

A consolidated way of getting information about events. Each organization is responsible for their own promotion. A biweekly email digest of ALL events on campus by all orgs would be ideal.

A councilor who can speak to you without an appointment.

A designated smoking area.

A football team

A fountain or more outdoor hangouts

A good college society

A good gym, refrigerators available to students, and more printers (all buildings, including athletics should have one)

A lack of motivational activities for me to actually care about participating in them.

A lack of recognition for my state issued CCW permit.

A library that stays open 24/7

A lot Of student interaction, especially with new students.

A pool.

A realistic view of the world

a sense of campus community

a sense of community

a sense of community

A sense of community I suppose, everyone sort of comes for classes, then leaves when they're done.

A sense of community.

A sense of community. Because most people live off campus, they don't hang out with a lot of students.

A sense of community. It just feels like a commuter school.

A sense of student involvement. A lack of communication between staff and students. No organization whatsoever in the secondary education department.

A sense of unity

A sense of unity. The "traditional college feeling".

A social aspect that does not exclude anyone (e.g. people not in sororities/fraternities).

A social aspect. there is nothing to do

A strong social center.

a support group

a swim, rugby, and football team

a track team

A way for everyone to feel that they fit in. Although it's not large there are still few places to meet people without feeling a little left out.

Adequate parking

Adequate parking and LIGHTING. It is extremely dark and dangerous on campus at night. The amber lighting has to go.

adequate parking.

Advertisement for blood drives.

Advertising of some events is lacking. Sometimes I won't find out about an event until the day of.

Affordable housing

Again, things for 'Adult Students.' Example: Orientation was horrible! I would have loved an option for it to have been Adult Student orientation. Instead I was stuck with just graduated from high school students and it was very awkward.

An improved Journalism lab. If IUS is going to offer the degree then PLEASE upgrade the overall program. A real newsroom setting would be awesome. As a sided note IUS needs to do advertising for this campus in Louisville. Most people across the river are not even aware this campus exist.

An MMA sports program...

An open line of communication between students and decision-makers.

An overall emphasis on getting everyone together to get to know each other.

Another bookstore option to buy our textbooks like other universities.

As a part time student taking evening classes, I don't believe I qualify to answer this question.

At the moment, I don't have any concerns with the campus.

Being able to use your credit card! Urr so frustrating to have 100 different accounts because you can't use your bank card! Also just a bigger group of things for older students. Not all of us can go to school right after high school! Maybe they should also offer more classes online!

CREDIT CARD/DEBIT CARD usage. No where on campus can you use a debit card or a credit card. ONLY CASH OR UCARD are accepted. well guess what? the campus is not making any money from me because all I carry is my debit card and hardly ever do I have cash on me. I would love to grab some hot chocolate and a muffin before my 8 am class but I have to have money on my ucard, which I do not do. / / The printing allotment. I understand that yall are trying to establish a "rollover allotment" but I have already had to money on my allotment TWICE. I always use ALL of my allotment, so I think cutting the allotment is hurting some people. I know other nursing majors that use all of their allotment as well as I do. / / Adjunct Faculty. Please minimize the campus hiring of adjunct faculty. if you absolutely have too, MAKE SURE THEY HAVE A DEGREE!!!! I had a professor that was AWFUL. this prof did not know how to pronounce vocabulary words, significant people's names, what those significant people's births and deaths were, and what they discovered. this professor was COMPUTER ILLITERATE! the "power points" were on Microsoft word. the words were all different sizes, colors, fonts, and was just a mess. a lot of people in that class did not know what was going on. this prof would talk about stuff during class but when you read the syllabus and read the chapters that were assigned, none of it correlated. / I also had a professor that stood at the board, worked out math problems but did not say a word and did not explain anything.

DIVERSITY!!!!!!! / Administration that really cares about the students / More programs after hours of 9-5 / we should have a student store like on campus that is open like from 8pm-6am and has like snacks and school supplies and like common things college students need.

Something that is especially open during finals and while we are studying. /

Diversity, A budget big enough to bring events and artist that will attract students and increase campus life and morale

Diversity.

Diversity

Eating areas for each building. In order to eat a meal I usually eat in my car, or in the commons (if it is close to where I am at, but this occurs rarely). / / Sometimes at the end of some days it is hard to get out because many people have classes that end at the same time, so perhaps a better strategy for managing traffic flow (more lanes that extend into the parking lot).

Electric pencil sharpeners, More money for printing allowance Fast Food on Campus

Elevator maintenance; some of those things scare me the way they shake and the noises they make.

Entertainment

Events for students

Events for students on campus.

Events or something similar that would praise students and bring excitement to campus and their schooling. Like free giveaways. EX: "Free Cookie Day". etc... (Awarding all students) To bring their spirits up.

Events that carry meaning. I tend to go to UofL events because they are very well planned and I get something out of them.

events that everyone can participate in.

Events that everyone would like to go to.

events to get to know more people

Everyone complains we do not have a football team. If we had a football team I believe more people would come to games and events because events would be announced at the games. There also aren't parties, which really makes people not attend events because there is no alcohol allowed on campus.

how you get informed of different events happening. I never hear of anything until its already over. keeping things open later. everything closes up while im in class.

I actually think the campus is doing pretty well.

I am not sure.

I do not feel like there are a lot of student organizations at all. I would love to get involved, I just feel like there is nothing for me in campus.

I don't always feel like I know about many of the things that are going on on campus. I would like to see more notification of athletic events taking place at this campus.

i dont know

I Don't Know

i don't know

I don't know when the events are, so maybe more advertising.

I don't know.

I don't really feel as if anything is lacking

I don't think I know of anything that could be lacking from campus.

I don't think the campus lacks anything. Every staff member that I have been in contact with has 1 ambition. That is to make the best for every student possible.

I don't think there is anything lacking on campus

I feel as if the campus is lacking communication among the students. In the classes I take, barely anyone talks to one another and passing people on the sidewalks almost feels awkward.

I feel campus is pretty great can't think of anything specific.

I feel food variety is lacking most on campus.

I feel it lacks comfort and color. I think some parts of the buildings need to be repainted or have some modern day design added.

I feel like all the events on campus are focused on students who are already in student organizations as opposed to new students who aren't familiar with anyone.

I feel like IUS has a pretty great campus overall. I have no complaints.

I feel like opportunities to meet with people that attend college here but do not live on campus are lacking.

I feel like spirit is lacking most on campus.

I feel like sports are lacking

I feel like the campus is lacking letting students know what events are going on.

I feel like the intermural sports are lacking, or the information on how to join is.

I feel like there are not many fun campus events for you if you are not in a sorority.

I feel like this campus should have more printers.

I feel like we are lacking communication and making more connections.

I feel that campus is lacking most in welcoming students. The first week seemed pretty welcoming with all of the free food/drinks and festivities going on outside, but then it slowly seemed like no one was really interested in keeping students welcome. I feel like it's hard to come by a smiling face from students or faculty.

I feel that campus lacks a variety of food choices. It would really be a nice feature to have several food choices here on campus.

I feel that interaction and information about activities between the students who live on campus and the students that live off campus is lacking.

I feel that our campus is lacking an easier way to meet new people. For example, I went to Indiana State my first semester and seemed to make friends much easier. However, I understand that the situations were much different.

I feel that the campus needs to host more events, and better communicate that such events are being held.

I feel that we need a better selection of food in the cafes.

i feel the class times were challenging to get right on m first time signing up for classes.

I fell that a more friendly atmosphere and truly feeling like students matter is what is lacking.

I find nothing lacking.

i just feel that there should be more events on campus that allow the students to meet each other.

I like my campus, I would like some community support. the local ingredients from a garden or even if IUS sponsors a community garden for students to become active in. A Garden wall like on TedTalk would be amazing!

I like the campus the way it is, I wouldn't change much about it.

I like the campus.

I think a feeling of community is lacking. People don't participate. They come here and leave. The university is somewhat lacking in the scholarly feeling of a school. It is a lot like high school in some ways, which comes with being mostly a commuter campus. Still, it would be nice if people actually attended events.

I think a lot of things are set up for younger students to which I am not. Have some activities that are age neutral.

I think that there should be more opportunities to win scholarships like this one.

I think the campus is lacking good parking spaces.

I think the campus isn't lacking anything significant.

I think the gym could use a renovation. Maybe even add a building and put a new gym and a pool in it.

I think there could be more fun events during the lunch hour, when a large number of people are on campus. I also feel like the different school are very separated from eachother and do not interact.

I think there may still be a few problems connecting students from all age groups but, over the past four years I have seen IUS grow in many ways.

I wish everything accepted debit cards..

I wish the daycare would take 1yr olds so I could spend more time at school

I wish their was more information about intramurals and that those would become a bigger thing.

I wish there were more on-campus, free student events.

I would like more lighting out in the parking lots because in some areas, I feel like there's no light, and it feels kind of dangerous. Although, I have seen more police officers patrolling the area, so that makes it better.

I would like the ability for Non-Traditional students to be active members of student organizations and clubs. All meetings are held during the day while I am at work and I can't get to them. More evening opportunities would help.

I would like to see all the chairs tossed and tables put in every room. It is much easier to work on the tables, there is more room and you are not squashed into a chair made for sixth graders!

idk

I'm not exactly sure if there is anything lacking. I like the campus how it is so far.

I'm not really sure. I don't feel like the campus is really lacking anything.

im not sure yet /

I'm not sure.

I'm not sure. Since I'm in the School of Education, I'm not on campus as much.

I'm really not sure. Students seem to be fine, but I still see a need to reach out to more students.

incentives for involved students. Perhaps having more incentives would increase student involvement.

Inclusion of people , most people feel excluded from groups and activities.

information about most things

information about organizations for elementary majors

Inner-mingling between the students. A more college campus like environment in the evenings.

International Student Organization

Internet quality

Involvement among the students for campus activities.

involvement

Is it just me or does IUS seem a little empty? I rarely see anyone walking to class, but that could be due to several reasons. More friendly people would also be nice. Another coffee shop (just kidding...), just more events that are friendly for everyone.

It is kind of hard to reserve a room for an event and with all of the talk about encouraging student organizations to do things, it doesn't really seem like they care about meeting the needs of the event. / It is also too cold in the classrooms in the winter.

It is so hard to find a parking spot during class hours

It would be nice if the vending machines took debit cards.

Keeping students around after class is over to get involved in student organizations.

Lack of places (coffee shops) on campus being open on Fridays/weekends or not having extended hours in the library for those who live on campus.

Lack of recreation

Lack of spread knowledge about what social groups are available.

lacking on campus, i feel there's a lack of local social events going on so students can walk up and take part of. I remember a couple times they had a church that donated food on uofls campus.

lgbt events

life (everyone commutes or goes home on the weekend)

Lodge events

Longer library hours

Lunch events

maintenance of the older buildings / hillside hall is full of musky mildew smell. it can't be good for the business and education prof who have their offices down there! / Also it is very dark at night. I don't believe that it is unsafe, but there is much opportunity for something to happen.

MASTER DEGREE IN SOCIAL SCIENCES

matth labs

Maybe more activities in the lodges

Maybe, more resturaunts, like a subway or something like that.

More advisors

More athletic teams are lacking on campus.

More commons areas.

More eventful

More events, especially free events, and it should have more events like up at the Bloomington campus.

More food choices

More internships and work study programs for students directly on campus would be nice.

More intramural activities/promotion of activities.

more learning speeches/lectures, more availability of class offerings (times offered morning, afternoon, evening and a better variety i.e. iub offers more).

More open/friendly organizations. Some of them seem overwhelming or aggressive.

More options (time-wise) for core classes. Smaller lab classes.

more options for drinks and food for later hours

More parking

more parking near classes

more places to eat on campus

More scheduling options; for example, certain classes are only offered during certain semesters of certain years and if a student was not aware of this, he/she could in up will a nightmare of a schedule because he/she was not able to plan ahead. This has happen to me, and in order to graduate as close to four years as possible, I had to take 17 credit hours because my choices of courses to take were extremely limited (think "take it or leave it" kind of approach).

More social groups

More social interaction, information for jobs

more sports and clubs1 cheer , g7\ygnastics. Show choir!

More sports teams

More sports teams

more student hangout areas in other buildings, maybe.

More student involved events.

More student organizations are needed (space is REALLY needed). Less focus & funding on the sports teams

More student resource oppurtunity. Let me use a damn computer all night long, please. As well as not being harassed by campus police when my tuition money goes to help maintain campus resourcing.

more support for our sports teams

more tables around for studing outside

more vending

More vending machines. Unless it's in a secret spot, I can't find one in the Life Sciences building.

More ways for students to get together in social situations after campus hours or on weekends.

PARKING!! We need parking garages only accessible with Ucards to prevent ticketing. / More recycling efforts and a greener campus - solar power, wind power, vegetable garden for cafeteria. / Bursar reimbursements should be issued sooner to give students the opportunity to buy their books from somewhere other than the bookstore as well as be prepared before classes start as apposed to being disbursed after the second week of classes and students not having necessary materials. / Student group leaders should be given an opportunity to meet with administrators regularly in an effort to keep each other aware of campus issues. / Student groups should be given paper allotments or leaders should. Too many pages are being wasted on student accounts for group purposes. / My involvement is an awful system and should be completely reevaluated or gotten rid. These are things that should be more accessible and useful through onestart/oncourse. / IT should keep a worker on staff in every building for purposes of paper/toner/tech issues. No excuses for them to be all in one place- it should be spread out. / I would like to see an effort made by the university to have bike lanes or side walks along Grant Line road. / Career Services is entirely too hard to work with on internships, they make the process too complicated and there should not be GPA requirements. / Student groups should not be required to use catering services when using conference rooms. The prices are too high and the food is awful. / Our campus needs more of the typical "student union" found on campuses with food vendors, stores, and more room for student organizations. / Student workers should be treated like student workers, unless they intend to increase pay or provide a uniform a strict dress code is unrealistic. / Students should be given more sheets on their printing allotments and double sided prints should not cost more! Saving paper should cost us more! / Student planner's should be bigger. / Prices in the bookstore are too high on all items. / The IT's childish approach to passphrases, firewalls, etc. is ineffective and demeaning. We are adults, treat us as such. / Print screens should be touch screen to quicken the process. / FYS classes are a waste of time, money, and campus resources. / Lodges should not cost more than an apartment or have restrictions- They are adults paying to live there, they should not be told what they can and can not do in their own homes. / Graduate students are not made welcome on campus. They should be allowed to join in groups or be student leaders/advisers. / Instructional videos should be made to assist with IT problems or help students learn their ways around oncourse/onestart. / Pick one or the other: oncourse/onestart and make everything accessible through one location, we shouldn't have to check so many locations. / Seat finder app is a waste, more effort should be put into the IUS app. / We should have a Women's and Gender Studies Major.

The campus experience

The campus needs directions. Other than one gigantic map on one part of campus.

The computer labs being closed on weekends

the diversity of class offerings / I feel as if there aren't many different class options to complete a requirement, they are normally basic classes, I want something interesting that you can't get everywhere. As part of IU, I think that we should have the opportunity to learn outside the box.

The feeling of being a community. I also think some of the staff could be more approachable.

The food court, and now printing.

the food options

The food options are pretty scarce around here compared to the other universities I have attended.

The lack of different times an event will occur. For example, all events occur at night and not in the mornings.

the library needs a place where you can sit and study with people and talk at a normal voice without feeling like your being loud the rooms provided are always occupied an open section is needed and it needs to be posted that people will be talking that way no one gets confused.

Ways to meet new people

We are lacking getting the word out to people.

Weekend activities. If I don't go home every weekend like everyone else, there is nothing to do.

Well, this is my first semester here and I am only here two days a week. I am just recently using the benefits this school has to offer (outside of classroom education). I noticed, however, a lot of students here seem to already know each other, perhaps from highschool or something. And I am eager to meet new people who share my same goals as a student (not EXACT same). / Also, this past semester I spent time in San Francisco, where they had trash, recycling, AND a compost can in there can for pick up. If we don't have an environmental club, we NEED one. And we could also hold an assembly for health and environmental education. /

When on IU Secure not being kicked off and having to sign in over and over again everytime you shut your computer, or mac computer that is. Library staying open later.

Wi-Fi access outside.

wifi coverage in some places is not great, 2nd floor of the library for example.

wifi is not always strong enough

Wifi. We are paying for wifi, but we can't get it hardly anywhere except by the window in the commons.

Windows in the classrooms!!! Also, a larger indoor commons area (not dedicated to eating) to study without it having to be in the library.

Working vending machines.

workout classes like zumba

Would like to see more events take place at night

Everybody is SO helpful and seem to have a really positive attitude (especially in the coffee shops!) And people seem to have a real sense of respecting others. I love that religion is a part of campus life. I feel like my professors truly care about their students and take their job seriously. And the organization in the resources and advising departments. A lot of staff here have gone above and beyond. I feel less stressed and more secure here. I think the campus is beautiful. And the smaller class sizes allow the teacher to focus more on individuals.

Everybody is very friendly.

I best like the Campus Commons because it is a relaxing place to gather between breaks with friends.

I can get around quickly to all my classes.

I can get my stuff done, I can walk to all my classes, its comfortable.

I don't have to stick around after class and be in something I don't want to be in.

i dont know

I enjoy being on campus and I think that it is a nice campus. I always enjoy seeing the plants and flowers and it gives campus a feeling that makes me think of home.

I enjoy the openness of the people I have met so far, both student and faculty/staff.

I enjoy the overall peacefulness of it and how there are many quiet place to relax and study.

I feel very safe on campus.

I like being in classes with not a lot of students because I feel as though it makes the class more personable with the other students and the teacher.

I like how beautiful our campus is. I have also liked most of my professors and classmates.

I like how clean campus is and how friendly staff is.

I like how clean the campus is, it makes me feel good walking through campus and realizing how well things are kept up.

I like how close the parking is and how everything is good walking distance. I like the offering of later classes and online classes due to working full time during the day.

I like how close to nature it is. there's alot of places to sit and use the internet or meet with friends and computer labs everywhere. i feel at ease at school definitely gives me the peace of mind to focus and do my homework. the staff is very friendly and helpful

I like how easy it is to contact classmates and profesors through oncourse.

I like how easy it is to find a place to study. I also enjoy the campus itself; it's not too big, but not too small.

I like how I feel comfortable to be able to be outgoing and reach out to others through my creativity.

I like how it is not hard to find places. Everything seems to be in it's own general area .I also like how there are places to sit down and talk with friends or do homework.

I like how its a small campus so its more personal and know more people. Its a very clean and organized campus.

I like how nice our campus looks with all the trees, hills and flowers.

I like how safe it is, and how pretty it is.

I like how small it is compared to IU Bloomington or even Purdue. I never wanted to go to a large college.

I like how small the campus is because it allows me to get from class to class without any problem.

I like how small the campus is.

I like how the atmosphere is relaxing and calm.

I like landscape and out door areas of the campus, it doesn't make you feel like your at school.

i like quiet study areas, coffee shops, the pond, the geese, and the nice teachers.

I like that classes are small, and that the advisors really care about your situation.

I like that it is pretty open and aesthetically pleasing.

I like that it is a small campus and the class sizes are small enough to get questions answered by staff.

I like that it is small and that my teachers know who I am.

I like that it is small and the classes are small.

I like that it is smallish and pretty clean.

I like that it's a relatively small campus, so I don't feel completely overwhelmed by the amount of people.

I like that it's a small campus with everything close by.

I like that it's a small campus, the atmosphere of campus, and the small class sizes. I also like the setup of the library.

I like that it's fairly small so it's not overwhelming.

I like that it's small.

I like that students are close, the classes are small, professors are able to work closer with students better than professors at a large campus, a sense of having a relationship with professors that builds through different courses.

I like that the campus is small and you get to know almost everyone you meet.

I like that the campus is not real big. Does not take long to get to classes.

I like that you have more freedom here.

I like the atmosphere on campus. It's more of a community than a school.

I like the atmosphere, the coffee shops, and the library.

I like the atmosphere, the environment, it's convenient and close to home.

I like the community and the environment.

I like the community size and openness of the campus.

I like the diversity and how friendly people and organizations are.

I like the environment, and how small and comfortable it is.

I like the fact that as a non-traditional student it has been easy for me to adjust to going to school. The other students and staff have made me feel welcome and not out of place.

I like the fact that the campus is small and easy to find your way around.

I like the friendly people, faculty, and when you need help someone is always around to help you no matter what the problem.

I like the homey feel that the campus presents. The class sizes are perfect.

I like the level of student involvement. The way that the students interact and are always planning events is great.

I like the look of the campus. It is very relaxing. And we have a lot of things near campus.

I like the size of campus, and how everything is so accessible.

I like the size of the campus, and so far I also like the professors. They take the time to talk to me one-on-one and explain any questions I have.

I like the size of the campus. It's not too small but it's clearly not really big... it's just right! I also like the intramurals that take place and the lodge events.

I like the small class sizes.

I like the small class sizes.

I like the small classroom size and the "homey" atmosphere.

I like the small yet big feel of it, and the campus is beautiful.

I like the smaller classes and how the professors have their own office hours for you to go to them and ask them questions. I also like the scenery on campus. It is a beautiful campus.

I like the whole atmosphere of the campus.

I like this campus a lot because it is small and relatively friendly.

I love almost everything about IUS

I love how everything is close together.

I love how professors and campus staff will help students out in their best way possible. It makes me feel like they really care about me.

I love how small it is and you can become close with your professor to be more on top of the class.

I love that I feel safe because there are police on the campus and the staff is very helpful when I have questions to ask.

I love that it is a small campus and you can get to know most of the professors.

I love that it is small and that everyone you meet is really nice

I love that the professors (at least most of them) are willing to help each individual student with something they are struggling with. It really helps knowing that you have their support. Also, I have always enjoyed how beautiful and peaceful our campus is.

I love the atmosphere and friendliness of everyone on campus. This is the best college experience that I have had thus far. EVERYONE is friendly and that makes coming everyday easier.

I love the atmosphere of the campus. It's big, while still seeming to remain nice and quaint and cozy. And the class sizes are perfect.

I love the people and professors. The environment here is very relaxed and caring.

I love the small class sizes and the home atmosphere. I also love all the organizations I am apart of.

I really like the welcoming community that everyone is more than willing to help you, and we have so many free services available to students.

I really like this campus and there is not much I can immediately think of that I would change.

I think it has a very nice scenery and the faculty members I have met so far are all very nice and helpful.

I think it is great that the campus is small enough yet offers a variety of classes and is close to home.

I think the campus is beautiful, and I like that there is a Christian organization (CSF).

I truly have had a wonderful experience at IUS. Yes, there have been up's and down's but the best thing that comes to mind when I think about IUS is about the time that I have had and how it is almost over. Experiencing college and life at IUS has made me the person that I am today and I am very thankful to the university. Go Grenadiers!

Instead of having to drive 3 blocks I can just walk to classes.

the student government trying to get students involved on campus

the student o makes it easy to meet people

The student organizations I am currently involved in.

the student to professor ratio

The students are friendly. The campus is beautiful.our student government is easy. The faculty and staff are open and accepting. The campus is clean and the janitors are helpful and nice.

the teachers

The time you have in the cafeteria

The trees

The trees and rose bushes

The trees are nice.

the trees around and places to sit around campus.

The trees, we have a beautiful campus. / Small class sizes and great professors. / Decently priced in compassion to other area schools.

The trees.

The variety of classes available and the variety of class times they are offered. It's really convenient.

The variety of student activities available on campus.

The way the teachers seem interested in teaching.

The wide variety if ethnicity

There are plenty of areas to go and get some quiet study time in, both outside and inside.

There are some cool teachers.

there is always something to attend or to do /

This campus is laid back, but on a professional level.

The community in the student O

Trees

tuition

very pretty, and very easy to feel welcome and belong.

Walkways along the pond.

We have a beautiful campus and for the most part, I can always pass somebody I know with a smile on my face.

What I like about IUS? It's small and very pretty.

What I like best about campus is the environment itself. The grass is normally always freshly cut and there are gardens of flowers spread throughout. I like that most of the teachers are nice and able to help and I also like that there are boards with maps of the campus to make it easier to find each building.

when I walk around now that I have gotten more involved since campus is small I see more people that I know. It's just the right size.
