

## ***IU Southeast Graduating Student Survey: Career Development Center Report***

### **BACKGROUND**

The Indiana University Southeast Graduating Student Survey is administered to students when they apply for graduation and collects data regarding post-graduation plans, employment and income, applied learning experiences, factors influencing student satisfaction with their experiences at IU Southeast, diversity and culture, campus safety and self-perceived levels of abilities. This multi-year report is intended to provide information regarding how these data have changed from year to year and to support decision-making that facilitate change in response to the dynamic needs of the student population.

Individual question response rate varies. We include partial responses in the report and, unless otherwise indicated, non-respondents are excluded in tabled data counts and percentages.
