PURPOSE OF PARKING AND TRAFFIC REGULATIONS

The purpose of these regulations is to expedite the efficient flow of traffic on the IU Southeast campus and to provide parking facilities for faculty, staff, students and visitors. Revenue generated from the parking fee system is used to operate, maintain, improve and expand all IU Southeast parking facilities.

AUTHORITY

IC 21-39-5-2 grants the University the authority to regulate vehicles. This section of the State Code states:

The board of trustees of a state educational institution may regulate the traffic of:

1. motor vehicles;
2. bicycles;
3. other vehicles; and
4. pedestrians;

on all streets, roads, paths, and grounds of real property owned, used, occupied, or controlled by the state educational institution.

Section IC 21-39-5-3 of the code speaks directly to the governing of parking at a state educational institution. The section of code states:

Sec. 3. Regulations adopted by the board of trustees of a state educational institution that are applicable to traffic and parking may include the following provisions:

1. Provisions governing the registration, speed, operation, and parking and the times, places, and manner of use of motor vehicles, bicycles, and other vehicles.

2. Provisions prescribing penalties for the violation of regulations. Penalties may include the following:

   A. Imposition of reasonable charges.

   B. Removing and impounding (at the expense of the violator) vehicles that are operated or parked in violation of regulations.

   C. Denial of permission to operate vehicles on the property of the state educational institution.

3. Provisions establishing reasonable charges and fees for the registration of vehicles and for the use of parking spaces or facilities owned or occupied by the state educational institution.

At no time will the employees of Parking Operations be subject to verbal or physical abuse, including being threatened, cursed or assaulted in any fashion. Any such abuse will be reported to the appropriate University authorities for disciplinary action.
GENERAL TRAFFIC REGULATIONS

Anyone operating a vehicle on campus is responsible for being familiar with and complying with all parking and traffic regulations.

- The speed limit for motor vehicles on University property is 20 mph. No vehicle may be operated in any parking lot at a greater speed than is reasonable and prudent under existing conditions.

- Pedestrians have the right-of-way at designated crosswalks. Both pedestrians and vehicles must comply with all traffic signals.

- Any accident involving a motor vehicle on University property must be reported to the University Police immediately. (812-941-2400)

- Bicycles will not be chained or locked to undesignated University property (trees, benches, light poles, fences...) or areas prohibited by fire code (doorways, corridors, stairways, fire exits....) Bicycles may not be parked in a space designated for a motor vehicle.

- The use of skateboards is prohibited on University property due to dangers to personal safety and property damage. University Police may issue University citations to violators and/or confiscate skateboards. Confiscated skateboards may be returned to owner upon proof of identification or to a parent or guardian of children under 18.

- Camping, living, or otherwise using one’s vehicle as a residence is not permitted on campus.

GENERAL PARKING REGULATIONS

Lack of parking spaces, mechanical problems, inclement weather or other disabilities do not justify parking violations. A parking permit does not guarantee the holder a parking space, merely the opportunity to park in a specified area as defined by the privileges of the permit.

Ownership of the permit remains with the University. Permits are nontransferable and are not for resale. Permits must be returned to University Police when the user leaves the University or will not be parking on campus for a month or more to avoid accumulating additional charges.

Regulations are subject to amendment as approved by the Vice Chancellor of Administrative Affairs and/or the Chancellor’s Cabinet. The regulations are in effect and enforced at all times. In all cases of conflict, signs and markings should be presumed correct and will take precedence over any conflicting parking map designation. A vehicle is deemed parked when the vehicle is stationary, whether occupied or not.

All areas and facilities in the University parking system are controlled. Permit areas are designated by the appropriate signage. Signs are posted at the entrances and within lots as to proper permits authorized to park in the area. Permits issued indicate the parking areas permitted to the holder. Designated areas may be revised as parking needs change. Use of certain lots may be temporarily restricted to facilitate special events,
construction, maintenance or other unusual circumstances. A parking permit is valid while conducting University business on campus, not for the purpose of storing a vehicle on campus.

The Softball Field lot located across Hausfeldt Lane does not require a permit during games.

- All vehicles parked in a permit lot must properly display a parking permit by hanging it from the rear view mirror, so that the permit number and expiration date are clearly visible. Vehicles without permits must purchase and display a visitor pass. Departments planning events that will require public parking should contact the University Police at least two weeks in advance to make arrangements for visitors.

- Parking of motor vehicles on campus is confined to areas designated for that purpose or as directed by the University Police. Parking is prohibited on lawns, in construction areas, or any other area that would mar the landscape of campus, create a hazard or interfere with use of University facilities by others.

- Motorbikes, motorcycles and motor scooters are subject to all regulations and must be operated only on streets designated for normal automobile use. A parking permit is required. Designated motorcycle parking should be used for parking.

- The person in whose name a parking permit is issued is responsible for all violations by all vehicles displaying that permit. A citation is not excused because another person was using the vehicle or the permit. Drivers of University vehicles are responsible for violations they receive while operating the vehicle.

- IU Southeast honors parking permits from other Indiana University campuses in comparable parking areas. Marked University vehicles may park in EM or Student zones.

- Spaces designated for small/compact cars (No Trucks) are for vehicles with an overall length of 15 feet or less.

- Any vehicle in violation of parking regulations or any which are apparently abandoned may be towed and stored at the owner’s expense.

- Accumulation of 6 or more paid or unpaid parking citations within a year will result in a tow warning. The tow warning gives the violator 48 hours to settle all charges or the vehicle will be towed even if the vehicle is not in violation of regulations. Accumulating 8 or more unpaid citations will result in tow without warning.

- Habitual violators are defined by six unexcused parking violations within a year. Habitual violators may lose parking privileges on IU Southeast property.

- Any vehicle in violation of towable offenses may be towed and stored at the owner’s expense by the wrecker service of the University’s choice. Tow fees will be paid directly to the towing company. If the truck is called to campus and the owner appears before the vehicle is towed, the owner/ violator shall be responsible for a dry-run fee to the wrecker driver. The same release conditions apply to vehicles immobilized.
• Altering any permit in any way or counterfeiting a permit is considered theft of services. Violators will be fined for the violation and may pay all back parking charges for the duration of the permit. The permit will be confiscated. Student violators will be referred to the Vice Chancellor of Student Affairs for student conduct violations. Faculty and Staff violators will be referred to the Vice Chancellor of Academic Affairs and Administrative Affairs respectively.

• If you have a valid parking permit and receive a citation for No Valid Permit or Improper Display of Permit, the citation will be voided once per calendar year, upon appeal.

SAFETY RELATED VEHICLE ISSUES

Any vehicle located on the campus which is causing a safety hazard, may be removed from campus. A safety hazard is identified as, but not limited to, leaking gas or oil, emitting toxic fumes or vehicles rolling out of a parking space. Fines and costs related to relocation and cleanup are the responsibility of the vehicle owner.

ABANDONED VEHICLES

IU Southeast Parking lots are not to be used for long-term vehicle storage. Long-term storage is defined as a vehicle that has not moved locations for more than two weeks. Any affiliate of IU Southeast with a valid parking permit may obtain permission in advance from the University Police to leave a vehicle longer than two weeks. Resident students with valid permits are exempt from this policy while school is in session as long as they are legally parked.

If permission is not obtained, after two weeks a tow warning will be placed on the vehicle along with notification of current charges owed. The owner will then have 48 hours to remove the vehicle from the premises. Charges will be calculated at the daily visitor rate if the vehicle is left in a visitor area or does not display a permit.

PARKING VIOLATIONS

These regulations are internal administrative regulations of the University and do not replace state laws or municipal ordinances. Violations 10 and 11 are subject to tow or immobilization without warning in addition to a fine. Parking regulations are enforced 24 hours a day, 7 days a week.

1. Line Straddling. Any vehicle parking across lines in designated spaces thereby taking up more than one parking space or prohibiting use of the adjacent space by another vehicle.

2. Parking facing opposite traffic flow (where angled parking is provided or parallel parking along streets).

3. Improper display of permit. Only current, valid permits may be displayed; permit must be hanging from the rearview mirror. Permit number, barcode and expiration date must be visible.

4. No valid permit displayed. Required in all permit lots.
5. Parking in posted or marked areas. No parking zones, yellow curbs, fire hydrant or fire lane, marked areas, crosswalk, blocking a drive or another vehicle, tow zone, exceeding posted time limits or otherwise prohibited by signs.

6. Parking in an area other than the type authorized by the permit displayed. Example “ST” permit in “EM” or “Service” zone or “EM” permit in a “Service” zone.

7. Displaying a counterfeit or altered permit.

8. Displaying a fraudulently obtained permit. Person does not meet the qualifications of obtaining the permit or permit has been reported lost or stolen.

9. Using an old ticket to circumvent parking regulations. Having a ticket on the windshield that has been obtained in a different location, on a different day or on a different car in an attempt to not receive another one.

10. Parking in a reserved space without proper permit displayed.

11. Parking in a disabled space without proper permit, disabled placard or disabled license plate.

12. Moving violation. Speeding, disregarding traffic controls or violations of state motor vehicle laws.

**RIGHT TO APPEAL CITATIONS**

Appeals must be filed in writing online at https://parking.iu.edu. Written explanations, supporting statements, photos, and diagrams may be attached.

The Appeals Committee is an independent group of students, faculty and staff. They will read the appeal and decide if the violation should be upheld or the appeal should be granted. The board shall consist of three (3) student members chosen by the SGA, one (1) faculty member chosen by the Faculty Senate and one (1) staff member chosen by the Staff Council. It is not necessary that the members of this group be members of the SGA, Faculty Senate, or Staff Council.

The appellant will be notified by university email of the Appeals Committee’s decision. The decision of the Appeals Committee is final.

**PARKING PERMITS**

**PARKING FEES, REGISTRATION AND PAYMENT**

Permits must be purchased online at https://parking.iu.edu.

Fees may be paid by credit card, Bursar account or payroll deduction. Employee pre-tax benefit is only available to faculty and staff who have their permits payroll deducted.

Permits will not be sold or issued to anyone who has outstanding citations.
All sales of permits are final.

PROPER PLACEMENT OF PARKING PERMIT

An IU Southeast parking permit is a hang-tag which should be placed on a vehicle’s rear view mirror and may be transferred to another vehicle.

If the parking permit becomes damaged or faded over a period of time, the owner may return the permit to University Police and receive a replacement permit at no cost.

REPLACEMENT

A defective permit should be exchanged immediately. There is no charge if the defective permit is turned in for a replacement. In the event a replacement is requested without the old permit, including lost/stolen permits, a $10.00 replacement fee will be charged to the owner. If a lost permit is found after it has been reported, return it to the University Police immediately. Use of the permit may result in fines and vehicle impoundment.

Parking permits should be removed from a vehicle before ownership is transferred, upon termination of association with the University, expiration of the permit or receipt of a permit to take the place of a previously used permit.

Daily permits are available at the University Police office and at dispensers located by each entrance to campus for persons who forget their regular permit.

PERMIT DESIGNATIONS AND ELIGIBILITY

Only persons with affiliation with the University may purchase permits to park on campus. Full-time staff cannot purchase a student permit; full-time students cannot purchase EM permits. Part-time status is determined by personnel rank code and Bursar status.

EMPLOYEE “EM” PERMITS

- Eligibility – faculty, staff
- Authorized parking – any “EM”, or “Student” area any time.

STUDENT “ST” PERMITS

- Eligibility – students
- Authorized parking – any “Student” area.
- Authorized in certain EM zones after times posted on the zone signs. Beware, the time may be different if you pull through a space.
DISABLED “D” PERMITS

- Eligibility – faculty, staff, student with a physical disability that is documented by state permit.
- Authorized parking – any “EM”, “Student”, or disabled space.
- Applicants must submit either a copy of their state tag with the yellow receipt or driver’s license or vehicle registration to disability services to receive a disabled parking endorsement.
- Visitors may park in disabled spaces if they display a state issued hangtag or plates in conjunction with a valid visitors permit.

ARTS INSTITUTE “AI” PERMITS

- Eligibility – community volunteers in the IUS Orchestra, IUS Concert Band, IUS Concert Choir, or Commonwealth Brass Band. Students, faculty and staff of IU Southeast are not eligible for this permit.
- Authorized parking – “Student” area of the Hickory Parking Lot.
- Authorized in EM area of Hickory Parking Lot after 6:00 PM.

GRENADIER “GR” PERMITS

- Eligibility – Members of the Grenadier Club, Athletics donors, and Athletics volunteers. Students, faculty and staff of IU Southeast are not eligible for this permit.
- Authorized parking – “Student” area of the Evergreen East and West Lots.
- Authorized in certain EM zones after times posted on the zone signs. Beware, the time may be different if you pull through a space.

SPECIAL “SP” PERMITS

- Eligibility – Faculty and Staff with IU retirement, members of IU advising boards, and at the discretion of the Chancellor.
- Authorized parking – any “EM”, or “Student” area at any time.

VISITOR PARKING

Visitor parking is available on the IU Southeast campus using a daily permit.

Guest permits are available for use in general permit parking lots. The cost of these permits is the daily visitor rate. They may be purchased at the automatic dispensers (kiosks) located near each entrance to campus, or at the University Police department during posted office hours. Daily permits must be displayed on the vehicle’s dashboard.
Authorized parking – “Student” areas at all times and “EM” areas after 6pm and weekends.

DEPARTMENTAL PARKING REQUEST

Departments planning events that will require public parking should submit the Departmental, Event and Arranged Parking request form to the University Police at least two weeks in advance for consideration.

IU Southeast charges a parking fee for events according to the guidelines listed below. The parking fee is $2.00 per vehicle.

To be considered for free parking and/or the waiving of enforcement, the event must be planned and hosted by a university sponsor. Free parking will not be considered for events that charge admission or attendance fees. These fees can be charged through Conference & Catering for each participant.

- **You are a university sponsor** if you are a department, a program, or a registered student club and are directly involved with the planning and execution of the event, and have a University representative (faculty/staff/club member) attend the event. The event will be considered part of the overall educational mission of the university and no rental fees or service charges will be applied (see information regarding events with registration fees below.)
- **You are not a university sponsor** if any of the above criteria are not met. A community business or organization that wishes to meet on campus must contact Conference & Catering to discuss availability and rental fees.
- **If a registration fee is charged** to attend an event, then parking fees apply. There is no reduction for hourly or partial-day parking. The charge will be coordinated through Conference & Catering as part of the event planning. Parking fees will be billed to either the host department or to the outside group hosting the meeting.

The University Police may ask for a second approval from the requestor’s supervisor if the event’s relationship to the university is unclear.

Individuals that are donating their time, talent or resources to make the event possible for our campus may be considered for a free parking permit for that day.

The chancellor reserves the right to decline an event if it is deemed not to be representative of the university. It will be at the discretion of the University Police to issue permits, waive parking for specific lots or deny any request.

Guests can purchase a temporary parking permit from one of the four parking permit kiosks and park on campus in spaces marked “Student Parking”. The rate is $2 for 2 hours or $5 for 12 hours. A vehicle displaying a temporary permit may park in a handicapped space with a state issued disability plate or placard.

**For events less than 8 hours**
The event organizer can pay a $50.00 per hour rate (a two hour minimum applies). Parking will be suspended in up to two parking lots for the duration of the event. A half hour grace period is given prior to and after the event.
For events 8 hours to 24 hours
The event coordinator can pay a flat fee of $400.00. This will allow for suspension of parking enforcement in up to two parking lots. A grace period of one hour prior to and after the event will be given.

BICYCLE PARKING

To ensure your safety, campus beauty, and unrestricted access to all individuals around campus, bicycles must be parked in bicycles racks or other designated areas. Bicycles must not be: chained to handicap ramps, light poles, handrails, bus shelters, telephone poles, patio furniture or fences; inside administrative or classroom buildings; in stairwells or hallways of residence halls; on sidewalks; against or attached to any tree, bush or plant; against or attached to any public seating fixture; parked in spaces provided for motor vehicles. Bicycles found parked in such a manner will be impounded by the University Police.

If you are consistently having problems finding a spot, please call University Police and we will try to add more spaces in the area.

LOCATION OF BIKE RACKS

- McCullough Plaza
- Crestview Hall, east and west side of building
- Activities Building, east side of building by main entrance
- Life Science Building, east side of building
- University Center North, west side by Commons entrance
- Residential Lodge areas

IMPOUNDED BICYCLES

Bicycles are impounded by cutting and removing the locking device.

When a bike may be impounded:

- Bicycles parked in a manner that creates a safety hazard, damage property or prevent use of or access to any University facility will be subject to immediate impoundment.
- Bicycles left undisturbed in racks for seven days or more may be treated as abandoned and impounded. Bicycles will be posted with an impound notice for 48 hours prior to removal.
- The University is not responsible for damage to locking devices and/or vehicles that require removal. It is lawful for the University to remove locking devices in order to impound a bicycle.
- Unclaimed bicycles which have been impounded due to abandonment or parking inappropriately will eventually be disposed of at the discretion of University Police.

CLAIMING AN IMPOUNDED BICYCLE:

1. Contact University Police to verify that your bicycle has been impounded.
2. You will be expected to provide your name, your IU Southeast student or employee ID number, description of the bicycle and the date you noticed your bicycle missing.

3. Impounded bicycles are released by University Police Monday through Friday 8am – 5pm. When you arrive to claim your bike, you must bring picture identification and the key or combination to your lock.

THEFT PREVENTION

The University assumes no responsibility for the care and/or protection of bicycles or their contents while operated or parked on University property. University Police do make regular tours of parking facilities. Many thefts can be prevented by following a few simple steps:

- Always lock your bike, regardless of how long you will be away from it.
- Only lock your bike to approved racks, not to trees or railings.
- For maximum protection, use a cable and lock as well as U-type lock. Thieves will seldom carry the tools necessary to break both types of locks.
- If you have quick release hubs, don’t forget to lock your wheels. The same goes for quick release seat posts.

BICYCLE SAFETY TIPS

- Watch out for sewer drains with slots that are parallel to the direction of travel. A bike’s front wheel can fall into parallel with disastrous and even fatal consequences.
- Make sure backpacks or purse straps are secured away from any moving part of the bicycle.
- Don’t double up! Take a passenger only if your bicycle is meant to carry one.
- Avoid balanced loads.
- Watch for pedestrians.
- Avoid traveling too fast down hills or on rough/slippery roads.
- Don’t hitch rides on trucks or cars.
- Don’t zigzag, race or stunt ride in traffic.
- Don’t show off. Keep hands on handlebars.
- Be cautious when riding on wet pavement.
